

Need help cage shopping

Posted by Gary_44 - 12 Jun 2008 16:34

Hey folks,

Finally got around to making a profile. I need a little education...

I'm getting more serious about a cage, wondering if you guys can give me recommendations on a kit or installer.

Found a speed shop here in Modesto thats built a few 944's, wants \$1600 minimum. I hope I can beat that.

What were the downsides to a bolt-in?

=====

If he found the lost vault, Ken might deserve a more appropriate suit...
