

Anyone knows what's up with Tony at TC Designs?

Posted by Litespeeds - 13 Mar 2009 13:58

I called Tony yesterday and today to try and schedule an appointment so I can have him install my driver's side net on my 944 Spec car so I can race next weekend but he has not returned my calls. Does anyone know if he is on vacation or something? Got to get this done, otherwise I won't be able to race.

I don't know where he's at but I've got a small welder if you need it. I'm not much of a welder but I can stick 2 pieces of metal together.

Ron

Thanks for the offer Ron but the drive out to you towing the car back and forth in gas money should be able to pay Tony to do the work. Just hope I get a hold of him this week.

Hey Sid,

If you can't get of a hold of Tony there is a guy that does welding across from my warehouse. He weld the window net bar for the LeMons car.

Saw Tony today and 15 minutes later, I am good to race now. Hope to see everyone out at Infineon.
