

1984 944 SP1/SPEC Racer

Posted by sbeamish - 23 May 2009 00:40

I have been slowing preparing this car as a 944 SPEC racer and have decided to move on to a 911.

Current Build Sheet

Porsche 944

Sparco Racing Seat

Mocal Oil Cooler

Roll Cage

Steel Lug Nuts

5-Pt Belts

Helmet Hook

Weltmeister Front Sway Bar

Weltmeister Rear Sway Bar

Rear Torsion Bar (solid)

Coil Over Kit

350 lb springs

Delrin Bushings

A/C Delete

Rod Bearings/Pan Gasket

Oil Pan Baffle

Oil Pressure Gauge

Water Temp Gauge

Oil Temp Gauge

Quick Release

Tach Mount

Lexan Windshield

Boxed A-Arms

Rear View Mirror

Toyo Proxxes R888 + 2 Spares

www.beamish.us/static.php?page=944Spec

Last summer I purchased the SPEC prep package from DART auto using all the weltmeister parts, replaced rod bearings, put in a oil pan baffle. I believe all that is left is to have a cut-off switch put in to make it race ready. I did HPDE events with it last year with the intention to put it in traffic this year.

If you have any questions please feel free to contact me.

Nice!

Looks like your from Minnesota?

I am. I ran it all last summer at BIR. Just picked up a 996 so I plan on running that this summer instead.

More details about the car. I bought it 3 years ago and the previous owner had the timing belt, water pump, and all the front seals replaced. Car had 117K on it when I bought it and has been used only on the track since then. I will taking a bunch of pictures this week and posting them to my server, once that is completed Ill post a link.
