

87 Spec 944 for sale in AZ \$7500

Posted by spec944#74 - 06 Nov 2009 01:58

I have a friend who was racing in SCCA Spec 944 in AZ who needs to sell his car and it would be a great deal for someone. It has a low hour motor (2 race days) plus a complete, never raced spare motor and a spare tranny with a welded diff. It comes with 12 wheels, including a set of good Toyo RA1's, brand new on-board fire system, Koni coil overs, shift light, corner balanced, newly installed Porsche OEM limited slip diff, FIA belts, new Kirkey seat, left and right window nets, Momo wheel, autopower cage, strut brace, stainless brake lines and new Hawk blue pads. Also comes with spare heads, crank, cams, two front fenders, and much more. Has stock ECU, flywheel and headers so all it needs is a center net to be NASA legal. The body paint is in excellent shape and it is ready to race, right down to the oil change, for \$7500. Trailer is available but not included.

If interested call Bob Zimmerman at 928-284-9425.
