Here is a good car to turn into a 944 Spec Racer. Just saw the ad.

I think the ad is deleted but here is the information:

1985 Porsche non-turbo, 4cylinders, all power, color-white, 5-speed

I bought this car in 07 did a full tune up and had it as a daily driver. The car ran great for a full year, then one day it started turning off on me. I took it to a mechanic and he determined it has a charging problem after a couple of hours running it will die out then need a jump. I brought it home and just parked it in the driveway since then. Currently it's going for \$600 O.B.O or trade. If interested please contact me at 408-854-0095 Anthony
