

WTB Hans Device - 20L

Posted by GT944 - 28 Feb 2012 18:11

New, used, whatever. As long as it's not retail price! PM me here.

What is the going price for one of these? I can get a new Safety Solutions Hybrid for about \$500 locally.

They run around \$700 for a new base model with the sliding tether option (which I understand is a must-have).
