

EARLY 944 Spec Koni Shocks

Posted by sm00thindian - 24 Apr 2012 07:41

In my haste to get my 924S up and running in the spec class I ordered the wrong set of shocks for the rear. The good news is that they ARE the right spec shocks for the rear of the early 944's. My loss is your gain.

26-1209 Sport Koni - \$200.00 shipped anywhere in the lower 48.

These are brand new shocks.

Im guessing your going to be at TWS this week end? I might buy them from you as I have no idea how old the ones on my car are.

I will be there, and if there are no takers before then I'll bring them with me.
