

Hanksville Cage and car \$1900

Posted by joefastguy - 09 Mar 2016 05:30

Get a cage and a car all for less than the cost of the cage!!!! I have a new, never installed weld in Hanksville HotRod cage for sale. This has every option offered by Hank. All gussets, nascar door bars, rear X brace etc. I ordered this cage to install in an 84 944 i was building. Things have changed and i will not be able to finish this project. The cage and car along with 2 engines and anything else i have will come with it. I could have the cage TIG welded into the car for an extra cost if you like. Please email me if interested
