

944 Spec Videos

Posted by AgRacer - 24 May 2012 14:26

Thought I would start a thread for people to post track/race videos from their 944 Spec. Ill start off with two from my first two events.

NASA April 2012 TWS Race My Fastest Lap

Hallett is coming up so I hope to have some good footage of Texas Region racing.

I use a GoPro Hero 1 and Race Render.

New video of my fastest lap from last week end. ~.5 sec slower than track record set by P1 in that same race.

May post the Race 4 video later this week end.

Cool, I've got my fast lap vid up and the contact between AI and I. My video software and skills suck, and I need to get a solid camera mount since the one I have now causes wavering. That trackmate overlay is sweet!

Jason, you may have a good angle from your car on race #3 just to get another look at the turn-in since

I'm curious to learn how to avoid/defend the setup.
