Water Wetter = BAD?
Posted by xsboost90 - 16 Aug 2012 18:37

forums.rennlist.com/rennforums/showthrea...amp:referrerid=11788

found this on rennlist.com - looks like water wetter can really foul up your system- now what? Im stuck using water in my spec car so i need some other alternative= maybe the royal purple stuff....

I've used it for years with no issues. Considering the source is a competing product, I'd take it with a big grain of salt.

I also have used it for 10+ years in my 944 spec motors. I have never seen any issues like that.
