

Spec944 Year Choice?

Posted by SemperFi75 - 16 Apr 2014 04:22

Hi Gents/Ladies

New to Spec944 forum.. Sorry, but have been "air-cooled" driver for many years.. GTS3/TTC 911 Carrera and SC in the barn.. Thinking of adding Spec944 to the stable .

For the limited years 83-88? 2.5L naturally aspirated , is there a better year choice of car to seek out? IF you had to do it over? A year that had just something else over another year car?

I will be building from scratch, and doing my own thing... Appreciate the feedback!
