Front clip Posted by rd7839 - 30 May 2014 08:33
Does anybody know if the front clip from an early car fit a late car(86)? I've got crash damage and everything in front of the shock towers is pushed back and to the left. I've got a donor but it's a 84.

I'm pretty sure mine was cut from an early car for my 89 chassis. I don't think it matters.
