

Transport to Miller

Posted by cullenwinter - 25 May 2008 01:11

I'm trying to remember if you Midwest guys are renting a big car transporter to get to Miller. If you are, please let me know if I could buy a spot on it to get my car back from VFC. I'll talk to Doug this week too, to see what he's hauling. Thanks

Cullen, it doesn't look like the transporter will be done to go. Ray and I bought a two car trailer to try and get ourselves out there, but we need a driver to get Ray's truck and trailer out there. Both Ray and I have plane tickets, a hotel, and unfortunately firm commitments for the Thursday before Miller. The upshot is though, there will not be an open space, sorry.

Thanks Eric. I'm just exploring the various possibilities....I'm still hoping that I have to go to Chicago so I can jam at the Kingston Mines !
