

Short 5th

Posted by rd7839 - 31 Jul 2012 09:01

Does anybody know what year and model cars came with the short 5th? I've got a couple trannies for sale in my area and will take them if they have the gears I need.

Is there a way to check from the outside, a serial number maybe?

Thanks

Ron

Stamped on the outside

944 xaxle codes

LSD long5th - 8Q, 4M, 7V

LSD short5th- 5Z

Short5th - QK, 7Q, 5Y

Long5th - QM, QL, 5S,
