

Cam Tower

Posted by karbuf - 21 Jan 2013 04:55

Found answer to question... need to know how to delete discussion after posting ..

Well.. the tower had to be sacrificed to get that bolt out.. Good news is that the head has been safely removed..

Now I need that tower.. How much would you want for that tower tcomeau?

Next question.. Do all 2.5L na cams have the same grind profile? Can I use my current cam in a different tower?

Thanks!

tim.....
