Anyone interested in early custom harnesses? Posted by many944s - 06 Jan 2009 05:18

Well, I'm finished with the harness for my project! I also measured all the lengths so I can make more anyone is interested. This replaces the factory body harness for use in a spec car. It is wired for:
Brake lights
Fuel Pump
Tach
Oil pressure (both gauge and idiot light)
Engine temp
Radiator fans
windshield wipers
Engine Run & Start.
Main power
The entire harness weighs in at just under 1 pound.
