Looks like we have 9 confirmed!

1. Stanley

2. Duffy

3. Hurley

4. Yousko

5. Evans

6. Toler

7. Werner

8. Pohlman

9. Dearstyne

I see three entries for GTS1 that are chassis eligible for our class (2 944s and a 924S), are any of these potential recruits into our ranks? If its something simple like chip, brakes, etc lets go after em and expand our ranks. Judging by times, I would say if they are GTS1 registered, they are already close to 944 Spec rules. I have a set of old RRs Id be willing to donate.

Anyone else waiting to sign up?

The 924 (Tim Pruitt) and the 944 (Mullins) are both way too modified and the third car (Mock) has talked about converting but would need to change a few things. Header, fuel rail, tires.

I have a set of cast headers and used RRs I could give him if he wants to play with us. I think he could also use some of the rule transition allowances as well.

Jason,

Brian and I have always suspected that John was waiting for our numbers to increase before he would convert "back". Yes, he was spec at one time. I think we as a group should take the initiative this weekend to ask him if he would join us. He is a experienced racer and would make a great advocate for the brand.

Guys,

Had a great time and thanks for all the hospitality. Wish the Saturday race got to run to completion but what can you do.

It's not much but here's my video from Saturday Blitz Race. I forgot to turn the camera on at the start so the video starts on lap two into turn 6.

Looking forward to coming back in June with some of the Mid-South cars to see if we can give you guys something to show up for.

Man you weren't kidding about that glare through the Lexan windshield! I looked for the windshield flashing pieces that you were needing but I can't find them :/ If they turn up I will shoot you a message.
