Too early to think about 2015? Posted by Timwold - 16 Nov 2014 18:26
My 2014 season is over and I was wondering if it was too early to think about 2014.
Much of the PCA calendar are published and it seems the NASA season is closing to be published.
There will be some new racers in the area next year- Chuck F and Steve?
There could be double digit 944 spec cars at each race next year. Please chime in with your planned race weekends so we can try to coordinate attendance to maximize the fields.
My tentative plans
PCA Nola- February
PCA TWS- March
PCA COTA- May
NASA Hallett- June
PCA Hallett- October
PCA Eagles- Oct or November
